It may be known already (you are here ☺) that the we maintain a website stating a list, among many other issues, with more than 550 motorhome-/camper places in the UK. Most of these are free of charge.

We browse the Internet continuously searching for any information to modify the list on our website in order to keep it as extended and reliable as possible.

We are Dutchmen and although England is our favourite vacation destination, it will be clear that we are not able to check the information we gather about each places personally. Possibly you are a citizen of the U.K. or one of the visitors of places on 'our' list. For this reason we would like you to ask you a favor.

If you are aware of any information on 'our' list not in line with the data on our website, e.g. additional or expired data, we would appreciate it very much to get a message from you. Your information will be used to update our site making it more useful to the many visitors we have. A picture of the motor home place will be appreciated very much as well.

The data has been taken over of several site's, for an enumeration to see below this document. Must be noticed that there in United Kingdom generally no formal motor home places is. Thus stand is mostly on own risk. However its parking where spend the night has been permitted. Also stand there cheaper camp-site incorporated in this list (costs to stand in last column and). The information is in English on alphabetical order.

In the name of all the visitors of our site we would to like to thank you in advance for your help.

Please Let us know if you have a website yourself with minutes of a trip in England the UK. In most cases and with your permission we will be happy to link to this site.

If you wish to consult our list, please visit <http://www.camperplus.info> and choose "vrije camperplaatsen Engeland". The list is written in English.

If any questions or remarks are left, don't hesitate to contact site@camperplus.info
